

Kalbar State School

The Assembly Hall is a modern functional building that will be a focal point for many of our school activities including indoor sports, whole school assemblies, instrumental band, choir, community functions, professional development, fetes, and extra-curricular activities.

It has a specialist sports flooring with an impact absorbing base and is currently marked with a $\frac{3}{4}$ futsal court (with nets) and a full volleyball court.

There is a fully serviced kitchen with ovens, refrigeration equipment and indoor and outdoor servery for catering purposes. The seating and trestle tables cater for up to 250 people.

Included is a state of the art sound, lighting and audio visual system with large screen and projector suitable for group presentations, concerts and seminars etc. Wifi and data is linked through the Education Queensland network and can be accessed through the hall and system. Acoustic panelling has been installed throughout the facility to produce an optimal sound quality from the PA system while still making it suitable for games and large groups.

The entire facility is accessible for disabled patrons with ramps, toilets and serveries.

The facility is suitable for hire. Permission to use the Assembly Hall should be made through the Principal/Registrar.
